International Journal of Forecasting 11 (1995) 607–608

international journal of forecasting

Author Index Volume 11 (1995)

(The issue number is given in parentheses)

Abramson, B. and **R. Clemen,** Probability Forecasting (1) 1– 4
Abramson, B. and **A. Finizza,** Probabilistic forecasts from probabilistic models: a case study in the oil market (1) 63– 72
Allen, P.G. and **B.J. Morzuch,** Comparing probability forecasts derived from theoretical distributions (1) 147–157
Anderson, E.A., Judgmental and statistical methods of peak electric load management (2) 295–305
Armstrong, J.S., *see* **J.T. Yokum** (4) 591–597
Azad, S., *see* **H.N. Mocan** (3) 417–427

Bandyopadhyay, S.P., L.D. Brown and **G.D. Richardson,** Analysts' use of earnings forecasts in predicting stock returns: Forecast horizon effects (3) 429–445
Basu, P., *see* **H.D. Vinod** (2) 217–231
Bergström, R., The relationship between manufacturing production and different business survey series in Sweden 1968–1992 (3) 379–393
Bier, V.M. and **W. Yi,** A Bayesian method for analyzing dependencies in precursor data (1) 25– 41
Blattenberger, G. and **R. Fowles,** Road closure to mitigate avalanche danger: a case study for Little Cottonwood Canyon (1) 159–174
Brännäs, K., Prediction and control for a time-series count data model (2) 263–270
Brown, L.D., *see* **S.P. Bandyopadhyay** (3) 429–445

Chatfield, C., Editorial. Positive or Negative? (4) 501–502
Choi, S. and **M.E. Wohar,** The expectations theory of interest rates: Cointegration and factor decomposition (2) 253–262
Clemen, R.T., *see* **A.R. DeWispelare** (1) 5– 24
Clemen, R.T., A.H. Murphy and **R.L. Winkler,** Screening probability forecasts: contrasts between choosing and combining (1) 133–146
Clemen, R., *see* **B. Abramson** (1) 1– 4
Cracknell, D. and **M. Knott,** The measurement of price elasticities – the BT experience (2) 321–329

Dagum, P., A. Galper, E. Horvitz and **A. Seiver,** Uncertain reasoning and forecasting (1) 73– 87
DeWispelare, A.R., L.T. Herren and **R.T. Clemen,** The use of probability elicitation in the high-level nuclear waste regulation program (1) 5– 24
Dowlatabadi, H., *see* **F.T. Tschang** (1) 43– 61

Finizza, A., *see* **B. Abramson** (1) 63– 72
Fowles, R., *see* **G. Blattenberger** (1) 159–174

Galper, A., *see* **P. Dagum** (1) 73– 87
Gaskins, J.N., *see* **V. Kumar** (3) 361–377
González, P. and **P. Moral,** An analysis of the international tourism demand in Spain (2) 233–251
Griggs, K., *see* **W. Remus** (2) 285–293

Herren, L.T., *see* **A.R. DeWispelare** (1) 5– 24
Horvitz, E., *see* **P. Dagum** (1) 73– 87

Islam, T., *see* **N. Meade** (2) 199–215

Kjærulff, U., dHugin: a computational system for dynamic time-sliced Bayesian networks (1) 89–111
Knott, M., *see* **D. Cracknell** (2) 321–329
Kumar, V., R.P. Leone and **J.N. Gaskins,** Aggregate and disaggregate sector forecasting using consumer confidence measures (3) 361–377

Leone, R.P., *see* **V. Kumar** (3) 361–377

Meade, N. and **T. Islam,** Forecasting with growth curves. An empirical comparison (2) 199–215
Mocan, H.N. and **S. Azad,** Accuracy and rationality of state General Fund Revenue forecasts: Evidence from panel data (3) 417–427
Moral, P., *see* **P. González** (2) 233–251
Morry, M., *see* **D. Pfeffermann** (2) 271–283
Morzuch, B.J., *see* **P.G. Allen** (1) 147–157
Muradoğlu, G., *see* **D. Önkal** (2) 307–319
Murphy, A.H., *see* **R.T. Clemen** (1) 133–146

O'Connor, M., *see* **W. Remus** (2) 285–293
Ogata, Y., Evaluation of probability forecasts of events (4) 539–541
Önkal, D. and **G. Muradoğlu,** Effects of feedback on probabilistic forecasts of stock prices (2) 307–319

Elsevier Science Publishers B.V., Amsterdam

Ord, K., Editorial. The future of the *International Journal of Forecasting* (2) 197–198

Patterson, K.D., Forecasting the final vintage of real personal disposable income: A state space approach (3) 395–405
Pesaran, M.H. and **H. Samiei,** Forecasting ultimate resource recovery (4) 543–555
Pfeffermann, D., M. Morry and **P. Wong,** Estimation of the variances of X-11 ARIMA seasonally adjusted estimators for a multiplicative decomposition and heteroscedastic variances (2) 271–283

Remus, W., M. O'Connor and **K. Griggs,** Does reliable information improve the accuracy of judgmental forecasts? (2) 285–293
Richardson, G.D., *see* **S.P. Bandyopadhyay** (3) 429–445
Rickman, D.S., A Bayesian analysis of the use of pooled coefficients in a structural regional economic model (3) 477–490

Samiei, H., *see* **M.H. Pesaran** (4) 543–555
Sapio, B., SEARCH (Scenario evaluation and analysis through repeated cross impact handling): a new method for scenario analysis with an application to the Videotel service in Italy (1) 113–131
Satchell, S. and **A. Timmermann,** On the optimality of adaptive expectations: Muth revisited (3) 407–416
Seiver, A., *see* **P. Dagum** (1) 73– 87
Shoesmith, G.L., Multiple cointegrating vectors, error correction, and forecasting with Litterman's model (4) 557–567
Simkins, S., Forecasting with vector autoregressive (VAR) models subject to business cycle restrictions (4) 569–583

Teräsvirta, T., Professor Clive W.J. Granger: An interview for the *International Journal of Forecasting* (4) 585–590
Timmermann, A., *see* **S. Satchell** (3) 407–416
Tschang, F.T. and **H. Dowlatabadi,** A Bayesian technique for refining the uncertainty in global energy model forecasts (1) 43– 61

Vere-Jones, D., Forecasting earthquakes and earthquake risk (4) 503–538
Vinod, H.D. and **P. Basu,** Forecasting consumption, income and real interest rates from alternative state space models (2) 217–231

Winkler, R.L., *see* **R.T. Clemen** (1) 133–146
Witt, C.A., *see* **S.F. Witt** (3) 447–475
Witt, S.F. and **C.A. Witt,** Forecasting tourism demand: A review of empirical research (3) 447–475
Wohar, M.E., *see* **S. Choi** (2) 253–262
Wong, P., *see* **D. Pfeffermann** (2) 271–283

Yi, W., *see* **V.M. Bier** (1) 25– 41
Yokum, J.T. and **J.S. Armstrong,** Beyond accuracy: Comparison of criteria used to select forecasting methods (4) 591–597
